

CAMBODIA

JOINED 50-IN-5
SEPTEMBER 2024

We are committed to bring a framework which can make digital documents have the same value as physical documents with physical stamps, which would make notarization obsolete. This is called "Trusted Services" which could serve as DPI for the world.

—
Sereyvath Chea
Secretary General of Digital Government Committee

CURRENT DPI FOCUS

DIGITAL IDENTITY AND VERIFICATION

IMPLEMENTING AND
MAINTAINING

CAMDIGIKEY (digital ID)
VERIFY.GOV.KH (verification services)

DATA EXCHANGE SYSTEMS

IMPLEMENTING
AND MAINTAINING

CAMDX

COUNTRY COOPERATION

Country Cooperation with Singapore on various DPI efforts, in addition to collaborating with Laos and Timor-Leste on their digital verification efforts.

DIGITAL PAYMENTS

IMPLEMENTING AND
MAINTAINING

BAKONG

DPI SPOTLIGHT

VERIFY.GOV.KH

Cambodia's verification platform helps ensure people have access to verified documents including certificates for public and private universities, high schools, and criminal records and other public services. This means that citizens can have digital certificates recognized without notarization both domestically and abroad.

Since launching in 2023, the government has successfully rolled out the platform to all public universities, 70% of private universities, in addition to relevant public services in 22 of 26 Cambodian Ministries.
